Overall Length:

23.625 inches

Overall Height:

13.625 inches

Overall Width:

11.750 inches

Dc Voltage Rating:

28.0 volts

Joint Electronics Type Designation System Item Name:

Transmitter, radio

Joint Electronics Type Designation System Item Type Number:

Type no. T-412/art-13b

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Not included

Transmitter Channel Quantity:

14

Power Output:

100.000 watts

Output Frequency Rating:

Between 2.000 megahertz and 18.000 megahertz

Frequency Control Type:

Crystal

Transmitter Emission Type:

F9

Fsc Application Data:

Radio communication equipment, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T199-d
