End Application:
5821-01-364-3956
Criticality Code Justification:
Feat
Component Type And Quantity:
1 heatsink and 6 resistor and 2 mounting pad and 1 printed wiring board and 4 semiconductor
Special Features:
Electrostatic dischg sensitive; radio frequency amplifier assembly, receiver filter
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
Filg:
