Overall Length:

5.800 inches

Overall Height:

1.250 inches

Overall Width:

2.300 inches

Electrical Power Source Relationship:

Operating

Power Output:

6.300 watts

Output Frequency Rating:

406.000 megahertz

Product Name:

Personal locator beacon

Special Features:

Gps positioning; 121.5mhz homing capability; requires class 2 non-hazard lithium batteries; polycarbonate material; operation requires 2 steps, deploy antenna and press on button; waterproof up to 16.40 ft. For 1 hr.; weight 8.9 oz. With lanyard; 66 channels

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T199-d
