Product Name:

One system remote video terminal

Special Features:

Includes: laptop computer, cls antenna, ku antenna, transceiver, transport case, and cables and adapters for ac/cd power configuration

Supplementary Features:

A portable and modular data collection system enabling warfighters to remotely download surveillance images, near real-time video, and critical geo-spatial data directly from unmanned aircraft systems (uas) and manned aircraft. Additional capabilities include the capture of embedded metadata on a moving map from live or recorded video, control of uas. Configuration may include ruggedized laptop computers, fixed and portable antenna assemblies, multiband transmitters, global position systems, and applicable integration software.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T198-b
