Special Features:

Hteam portable collection system tpcs is designed to be a man/team-portable, vehicle transportable, light weight, modular, and scaleable ground collection system with integrated df, collection, analysis, processing, and dissemination capabilities, consists of outstations (ccs-os) 4: each outstation consists of - supervisor manpack 1; and collection operator manpacks 2; analysis subsystem (as) 1: each "as" consists of - analyst supervisor manpack 1; file server manpack 1; analyst transcriber manpack 2; analyst manpack 1; external comm manpack 1; and ac comm manpack1; communication subsystem (cs) 1: each "cs" consists of - comm operator manpack 2; crypto equip manpack 1; and external comm/hf comm manpack 1

General Description:

Tpcs is designed to be a man/team-portable, vehicle transportable, light weight, modular, and scaleable ground comint system with integrated df, collection, analysis, processing, and dissemination capabilities, consists of outstations (ccs-os) 4: each outstation consists of - supervisor manpack 1; and collection operator manpacks 2; analysis subsystem (as) 1: each "as" consists of - analyst supervisor manpack 1; file server manpack 1; analyst transcriber manpack 2; analyst manpack 1; external comm manpack 1; and ac comm manpack 1; communication subsystem (cs) 1: each "cs" consists of - comm operator manpack 2; crypto equip manpack 1; and external comm/hf comm manpack1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
