Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Included

Power Output:

5.000 watts and 50.000 milliwatts

Operation Method:

Automatically triggered

Operating Frequency:

406.025 megahertz and 121.500 megahertz

Special Features:

Length 11.000 in; width 6.500 in; height 4.600 in; survival radio; multi channel global maritime safety system hand held vhf survival craft radio; all maritime simplex channels including weather; automatic selection of ch 16; floats; simple touch pad operation; highly visible yellow case; waterproof to 10 ft; w/lanyard; belt clip and adjustable wrist band; international version; w/user replaceable lithium (8 hrs life) or rechargeable (6 hrs life) battery

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T199-c
