Overall Height:

4.480 inches

Overall Width:

6.250 inches

End Application:

Special electronic aircraft (e2c)

Criticality Code Justification:

Agav

Product Name:

Processor, display and control

Special Features:

Depth: 11.000 inches; weight: 6.8 lbs; processor has mounting holes for rack or console locations. Operating power requirements: 22-33 vdc, 1.8a@ 27.5 vdc max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
