Maximum Power Dissipation Rating:

400.0 watts

End Application:

An/trn-26c

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Not included

Installation Design:

Mobile

Receiver Frequency Rating:

Between 962.0 megahertz and 1213.0 megahertz

Transmitter Frequency Rating:

Between 962.0 megahertz and 1213.0 megahertz

Frequency Band Type And Quantity:

2 receiving and 2 transmitting

Frequency Channel Type And Quantity:

252 receiving and 252 transmitting

Emission Type:

+9 receiving and +9 transmitting

Functional Description:

Shelterized mobile tacan system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T198-b
