**End Application:**

Inls consumables ael

**Electrical Power Source Relationship:**

Operating

**Internal Battery Accommodation:**

Included

**Power Output:**

5.000 watts

**Emission Type:**

P9

**Channel Quantity:**

2

**Operation Method:**

Automatically triggered or independent

**Operating Frequency:**

406.000 megahertz

**Product Name:**

Rapidfix 406

**Special Features:**

Fully enclosed; automatically deploys epirb if vessel sinks to approximately 13 feet; built in vessel code can be programmed by an acr authorized service center; built in strobe for enhanced location in poor visibility conditions; transmits on 406 mhz, and 121.5 mhz (sar homing freq.); lithium battery with a life of 5 years; operating life-48hours at 40 degrees f; can be manually activated; self-buoyant.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T199-c
