End Application:

Inls consumables ael

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Included

Power Output:

5.000 watts

Emission Type:

P9

Channel Quantity:

2

Operation Method:

Automatically triggered or independent

Operating Frequency:

406.000 megahertz

Product Name:

Rapidfix 406

Special Features:

Fully enclosed; automatically deploys epirb if vessel sinks to approximately 13 feet; built in vessel code can be programmed by an acr authorized service center; built in strobe for enhanced location in poor visibility conditions; transmits on 406 mhz, and 121.5 mhz (sar homing freq.); lithium battery with a life of 5 years; operating life-48hours at 40 degrees f; can be manually activated; self-buoyant.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T199-c
