Maximum Power Dissipation Rating:

1.0 watts

Electrical Power Source Relationship:

Self-contained

Receiver Frequency Rating:

1.0 hertz

Frequency Channel Type And Quantity:

12 receiving

Features Provided:

Rohs directive compliance

Product Name:

Multi-gnss (gps, glonass, qzss) smart antenna

Special Features:

Sealed unit for harsh environments, full -40 to +85c operation; rugged and weatherproof selfcontained unit; single-satellite timing mode; physical interface: rs-422; mounting: 1"-14" straight thread or 3/4" pipe thread; ingress protection: ip 67; +5 vdc* to +36 vdc, reverse polarity protection; weight: 5.4 oz (154 g); emc: ce, fcc class b

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T198-b
