**Special Features:**

50 khz channel spacing, frequency stability porm 0.003 pct, from m30 degrees c to p70 degrees c porm 0.005 pct from m30 c to m55 degrees c audio output 100 mw min.Into a 200 ohm to 500 ohm resistive load, plug-in and color coded circuit boards, digital and analog outputs; 108.000 mhz to 117.950 mhz continuous duty

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T199-d
