**End Application:**

F-16 acft

**General Description:**

Vswr 1.8 maximum from 960 to 1220 mhz; 1.6 maximum from 1000 to 1100 mhz; normal operating pressure differential across antenna 0 to 15 psi; maneuver load test, vertical down 10.4g, vertical up 5.2g, horizontal 6.1g; dimensions in in., base diameter 8.250, cone diameter 6.81, max height 1.625

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
