End Application:

C-130 and c-141 aircraft

Document Source:

24937

Document Type:

Federal specification

Document Identification:

Faa tsoc91

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Included

Operating Frequency:

Between 121.500 megahertz and 243.000 megahertz

Vehicle For Which Designed:

Aircraft

Special Features:

Remote control unit included provides for test and manual control and indication of operation at the crew station; the manufacturer may provide for use of the aircraft battery or any other supplemental supply for remote controls and monitor functions, provided that another requirement of this specification is not compromised

Functional Description:

Emergency locator to transmit emergency signals from a downed acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T199-c
