End Application:

An/asq-141, airborne warning and control system, e-3a aircraft

Installation Design:

Airborne

Functional Description:

Used as radio altimeter

Reference Data And Literature:

12r5-4-123-2

Relationship To Similar Equipment:

Similar to collins radio altimeter p/n 522-3698-008

Supplementary Features:

Mmajor components: altitude processor a4, altitude trips board a8, modulator a2, monitor a5, monitor processor a6, power supply a7, receiver/transmitter a3, housed in standard arinc 1/2 atr short case; weighs 15 lb. Max.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T208-a
