End Application:

Navstar global positioning system (gps)

Joint Electronics Type Designation System Item Name:

Receiver radio

Joint Electronics Type Designation System Item Type Number:

R-2399/a

Internal Battery Accommodation:

Included

Plug-in Tuning Unit:

Not included

Special Features:

Receiver provides position, and time info to the host vehicle systems when provided signals from gps satellites; receives spread spectrum signals from an antenna electronics unit at an intermediate frequency of 173.91 mhz, demodulates these signals and provides processed data to the host vehicle; tray mounted, front hold down hooks, front connectors; material - aluminum chassis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T199-d
