Overall Length:

12.620 inches

Overall Height:

7.620 inches

Overall Width:

7.530 inches

Ac Voltage Rating:

1115.0 volts

Frequency Rating:

400.0 hertz

End Application:

Global positioning system

Electrical Power Source Relationship:

Operating

Phase:

Single

Special Features:

Provides position, velocity and time information to the host vehicle systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T199-d
