Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Included

Operation Method:

Automatically triggered

Operating Frequency:

Between 36.500 kilohertz and 38.500 kilohertz

Special Features:

Used to locate aircraft underwater; acoustic; 160.5 db acoustic output; 0.9 pulse/sec pulse repetition rate; 9rms pulse length; activate by immersion in salt or fresh water; 6000m operating depth; aluminum housing material

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T199-c
