**End Application:**

An/arn-14 (v) ; fixed wing acft

**Criticality Code Justification:**

Feat

**Special Features:**

Qcontains parts and assemblies that are susceptible to electrostatic discharge; this item is a vor/ils/gb receiver w/analog instrumentation outputs and is 1553b compatible; 28vdc input; rmi driver requires 26vac input

**Relationship To Similar Equipment:**

Same as p/n 622-6376-005 except includes upgraded vor/loc receiver and synthesizer modules that are fm immunity compatible

**Type/model Designation:**

Vir-130a

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T199-d
