End Application:

Uns-1f super flight mgmt system

Power Source:

External or self-contained

Input Intelligence Type:

Fuel sensor and flight command information and navigation course selected and continuous update of course

Intelligence Input Method:

Electrical

Features Provided:

Electrostatic sensitive and ruggedized

Criticality Code Justification:

Agav

Product Name:

Uns-1f navigation computer unit

Special Features:

Remotely mounted unit houses the system's central processing unit (master computere), the navigation guidance system interface, fuel flow

interface & navigation database; ncu can be removed from aircraft rack without loss of database memory

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A30800
