Wattage Rating In Watts:

10.0

Ac Voltage Rating:

Unable to decode

Frequency Rating:

Component Document Origin:

Government

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Not included

Phase:

Unable to decode

Specification Or Standard:

Mc-364-d type

Fsc Application Data:

Public address set, except airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T20100
