## Ac Voltage Rating:

110.0 volts

**Frequency Rating:** 

60.0 hertz

Accessory Component Quantity:

2

#### Furnished Items:

Junction box, power supply

#### **Switch Position Quantity:**

16

# All Station Position:

Not included

Amplifier:

Included

#### **Electrical Transmission Type:**

Wire

### Accessory Controlling Agency:

Du kane corp

### Accessory Identifying Number:

110-224 part no. And 110-217 part no.

# **Electrical Power Source Relationship:**

Operating

### Usage Design:

Indoor

Phase:

Single

## **Fsc Application Data:**

Intercommunication set, nonairborne

Shelf Life:

N/a

### Unit Of Measure:

--

# Demilitarization:

No

Fiig:

T20100
