Wattage Rating In Watts:

8.0

Ac Voltage Rating:

115.0 volts

Dc Voltage Rating:

12.0 volts

Frequency Rating:

60.0 hertz

End Application:

Vw/s: arleigh burke class ddg; kidd class ddg; tarawa class lha; emory s. Land class as; wasp class lhd; nimitz class cvn; oliver perry class ffg; lpd-17 class amphibious transport dock; forrestal class cv; spruance class dd (963)

Internal Battery Accommodation:

Included

Phase:

Single

Special Features:

Single unit containing microphone, amplifier and loudspeaker

Functional Description:

All purpose sound amplification system with tape recorder connectors and reading lamp. Ac and battery operation permits use anywhere. 14 watts audio power. Weights 33 pounds with batteries. Requires 2 6 volt lantern type batteries, battery life approx. 75 hours

Fsc Application Data:

Public address set, lectern type, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
