Dc Voltage Rating:

30.0 volts

Component Document Origin:

Industrial

Electrical Transmission Type:

Wire

Internal Battery Accommodation:

Included

Special Features:

Orig dwg name-party line main station

Functional Description:

Power supply provides the dc power and line termination (200 ohms) for the system. Built-in no-fail power supply. Components have reverse polarity protection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
