Overall Length:

20.000 inches

Overall Height:

8.000 inches

Overall Width:

15.000 inches

Ac Voltage Rating:

Between 117.0 volts and 240.0 volts

Frequency Response Tolerance In Decibels:

-3.0/+3.0

Frequency Response Range In Hertz:

+300.0/+3000.0

Input Impedance Rating In Ohms:

10000.0

Operating Speed At Rated Capacity:

15.000 inches per second and 16.000 inches per second

Electrical Power Source Relationship:

Operating

Case:

Not provided

Internal Battery Accommodation:

Included

Recording Method:

Magnetic

Recording Medium For Which Designed:

Tape

Input Channel Quantity:

4

Phase:

Single

Special Features:

Dual transport; time code generator; search; voice activated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T207-a
