Overall Length:

12.500 inches

Overall Height:

3.000 inches

Overall Width:

8.500 inches

Ac Voltage Rating:

110.0 volts

Frequency Rating:

60.0 hertz

Electrical Power Source Relationship:

Alternate operating

Case:

Provided

Recording Method:

Magnetic

Recording Medium For Which Designed:

Tape

Supplementary Features:

Console measures: 24.000 in. W; 18.000 in. D; 43.000 in. H; recording format: linear fm recording; recording medium: 0.50 in. High density magnetic tape; recording time 25 min at 60 fps & 45 sec at 2000 fps full frame rates; 60, 200, 500, 1000, 2000 fps; stored image is federal to a tv monitor. Item is analyzer, motion

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T207-a
