Dc Voltage Rating:

12.0 volts

End Application:

Closed circuit tv

Case:

Provided

Recording Method:

Magnetic

Recording Medium For Which Designed:

Tape

Supplementary Features:

Hi8 dockable recorder/player, 8mm time code generator, 2 pcm & 1afm audio, directly docks to the dxc-325, 2hr recording, 60 min operation with one np-1a, aluminum diecast body, xlr mic inputs, 4-pin xlr dc input, self-diagnosis; pwr consumption: 7.5w, opr temp 0 to 40 degrees c; storage temp: m20 to 60deg c; video hi8 format means the luminance fm carrier freq is increased from 5.0mhz to 7.0mhz & the freq deviation is expanded from 1.2mhz to 2.0mhz; designed to be connected to sony dxc-325/327/537 3 ccd color video camera

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T207-a
