Overall Length:

15.300 inches

Overall Height:

1.750 inches

Overall Width:

17.250 inches

Voltage In Volts And Current Type:

264.0 ac

Product Name:

Display processor

Special Features:

Display processor, av system designed for multimedia presentations, videoconferencing; 2 window display; rgb, hdtv, s-video, composite ir; optional dvi inputs; resize and position wand; pan and zoom inputs; ethernet and rs-232 control; web based operation; 4: 3 and 16: 9 displays; fades; colored and shaded backgrounds; titles and borders; 1 ru chassis; genlock

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
