End Application:

F-18 fighter

Power Source:

External

Maximumlength:

151.0 millimeters

Maximumwidth:

128.0 millimeters

Maximumheight:

19.0 millimeters

Intelligence Data Handling Capability:

Video return from 0 to 20000 yards receiving automatic

Special Features:

Superficial technology with heat sink between both surfaces

Fsc Application Data:

Chassis assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
