Overall Length:

10.400 inches

End Application:

Paracorporeal ventricular assist device (pvad)

Current Rating:

3.360 amperes

Voltage In Volts And Current Type:

16.0 dc

Product Name:

Mobile tablet computer

Special Features:

Touch screen; svga tft; indoor/outdoor; this computer is required only during start-up and for diagnostic purposes

Supplementary Features:

Computer runs an interface monitoring program specifically designed to communicate with the tlc-ii portable vad driver

General Description:

Mobile computer (tablet computer) used for data log file retrieval and for changing operating parameters of the tlc-ii driver (beat rate, accumulator pressure, etc.)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
