Overall Length:

3.0 inches

Overall Height:

3.5 inches

Overall Width:

1.3 inches

Fragility Factor:

Rugged

Current Rating:

250.0 milliamperes

Unpackaged Unit Weight:

0.25 kilograms

Voltage In Volts And Current Type:

12.0 dc

Product Name:

Tactical video processor (tvp)

Special Features:

Temperatur: minus 30.0c to 60.0c; immersion: 1 meter; kit contents: tactical video processor module, rechargeable lithium-ion battery (optional charger), programming cable, operator's card, battery life using supplied bullet camera (constant stream/storage): high capacity lithium-ion battery is 8.0 hours.

Color:

Black

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
