Overall Length:

8.812 inches

Overall Height:

0.281 inches

Overall Width:

7.187 inches

Component Type And Quantity:

2 capacitor and 35 diode and 4 microcircuit and 17 pad and 1 printed wiring board and 1 relay and 53 resistor and 17 transistor

Special Features:

Mounting method: printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
