Overall Length:

3.000 inches

Overall Height:

1.344 inches

Overall Width:

1.562 inches

Component Type And Quantity:

1 capacitor and 1 cup and 10 resistor and 1 transistor and 2 wafer

Special Features:

Major components: semiconductor device, diode 1; mounting method and configuration: stud; four no. 4-40 thread on 1.000 inch by 2.100 inch centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
