Overall Length:

6.000 inches

Overall Height:

0.750 inches

Overall Width:

5.000 inches

Component Type And Quantity:

13 capacitor and 4 holder and 24 resistor and 4 shield and 1 transformer

Special Features:

Major component and quantity: board, marked 1; diode, semiconductor device 6; tube, electron 4; mounting method: bracket, slide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
