Special Features:

Pulse code modulation; multiplex time div type 750 pips per sec.; transmitter 3 inputs 1500 hz band w 50 v to m50v level range cont var digital parallex correction provided; receiver 6000 balanced impedance 0 to m20dbm 3 elec outputs digital parallex correction provided; oper pwr rqmt ac 110v 60 hz 1 ph; components list doc sig supply man sig 7 & 8; jetds id coordinate data set type an/tsq-36; mobile installation for truck; fsc appl coordinate data set radar nonairborne exc fc and gm/zzztkx

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
