Overall Length:

96.000 inches

Overall Width:

48.000 inches

Overall Thickness:

0.812 inches

End Application:

An/fps-20

Component Document Origin:

Industrial

Display/plotting Surface Material:

Plastic

Display/plotting Surface Type:

Plain

Surface Shape:

Rectangular

Usable Surface Area:

4608.0 square inches

Inscribed Display Location:

Back

Special Marking Tool:

Required

Special Marking Tool Type:

Grease pencil

Lighting Facility:

Not included

Fsc Application Data:

Radar set group, nonairborne except for fire control and guided missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T144-n
