

View Online at <https://aerobasegroup.com/nsn/5840-00-696-5382>

**Special Features:**

O/a 6 x 8 x 24 in.; impedance-cap. Coupling; 1090 to 1110 mhz freq. Range; capacitor tuning; operating pwr rqmt 115 v 60 hz 1 ph 115 v 400 hz; 75 o input 75 o output impedance; 38 screw type terminals located on inside bottom of cabinet; jetds id indicator coupler type sa220/upx; fsc application data: radar set nonairborne exc fc and gm

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T389-c
