Overall Length:

6.938 inches

Overall Height:

1.500 inches

Overall Width:

4.875 inches

Component Type And Quantity:

1 bracket and 1 handle and 3 nut and 1 resistor and 3 screw and 9 washer

Special Features:

Major components and quantity: assembly 1; test jack 2; mounting method and configuration: camloc fastener, two 0.250 inch diameter holes on 4.250 inch spacing center to center

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
