Overall Length:

7.344 inches

Overall Height:

0.062 inches

Overall Width:

4.750 inches

Component Type And Quantity:

34 resistor

Special Features:

Major components and quantity: crystal diode 40; printed circuit board 1; mounting method and configuration: bolt, nine 0.120 inch diameter holes irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
