Overall Length:

5.250 inches

Overall Height:

3.000 inches

Overall Width:

3.250 inches

Component Type And Quantity:

9 capacitor and 4 coil and 9 resistor and 2 shield

Special Features:

Fmajor components and quantity: connector, receptacle, electrical 4; electron tube 2; jack, test 3; mounting method and configuration: captive screw, four no. 6-32 on 4.500 inch by 2.187 inch centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
