General Description:

Mumetal, 0.25 in. Thk, chemical composition - internal section contains silica sand and silicone fluid, fluid filled by immersion process, 6.15 in. Lg, 3.86 in. H, 2.75 in. Thk, item contains 500v supply assembly, converter assembly, multiplier 600 v supply assembly and bleeder multiplier assembly, principles of operation-oil section assembly contains the high voltage power supply, brown matte finish, borwn color, 10,000 ft operating altitude p10 degrees c to p65 degrees c temp rating, hermetically sealed

Fsc Application Data:

Automated radar terminal system arts iii, data entry and display subsystems, type i and type ii display, power supply-cathode ray tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
