**End Application:**

An/gpn-xx

**General Description:**

2.0 in. lg, 2.0 in. width, 0.50 in. High; 2 mounting studs 4-40unc-2a; molded epoxy case; tinned copper leads 22awg; delay time 3.2 microseconds; terminating resistance 500 ohms; output rise time 0.175 microseconds max; distortion 5 percent max, attenuation 2db max; rated voltage 100 volts dc; operating temp range minus 10degrees c to plus 75degrees c; shall be capable of meeting the environmental requirements of mil-d-23859a

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
