End Application:

An/tpt-t (v)

Supplementary Features:

This is a electronic warfare training set, the unmanned threat emitter system, simulates the actions of threat air defense units with remote unmanned emitters. The remote emitters simulate surface-to-air missile target tracking radars, anti-aircraft atillery radara, and missile command guidance signals that stimulate attacking aircraft on-board electronic warfare radar warning receivers, providing realistic training for aircrews

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T208-a
