**End Application:**

An/tpt-t (v)

**Supplementary Features:**

This is a electronic warfare training set, the unmanned threat emitter system, simulates the actions of threat air defense units with remote unmanned emitters. The remote emitters simulate surface-to-air missile target tracking radars, anti-aircraft atillery radara, and missile command guidance signals that stimulate attacking aircraft on-board electronic warfare radar warning receivers, providing realistic training for aircrews

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fiig:**

T208-a
