Reflecting Element diameter:

12.500 inches

Reflecting Element Material:

Aluminum

Err Default:

Err default

Special Features:

Marine grade aluminum circular plates; minimized flexing; dimpled to minimize distortion; touch injection molded, captive corner latches for angle error; reduced aerodynamic drag; stows flat

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T222-b
