**Overall Length:**

12.000 inches

**Overall Height:**

5.000 inches

**Overall Width:**

12.000 inches

**Transmitted Signal Frequency Rating:**

400.0 megahertz

**Special Features:**

Depth range 0 to 12 feet, weight is 11 ilbs, this item is suited for detection and mapping of utility pipes as well as shallow engineering and environmental applications

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T208-a
