Overall Length:

12.000 inches

Overall Height:

5.000 inches

Overall Width:

12.000 inches

Transmitted Signal Frequency Rating:

400.0 megahertz

Special Features:

Depth range 0 to 12 feet, weight is 11 ilbs, this item is suited for detection and mapping of utility pipes as well as shallow engineering and environmental applications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T208-a
