Overall Length:

24.000 inches

Overall Height:

12.000 inches

Overall Width:

24.000 inches

Transmitted Signal Frequency Rating:

200.0 megahertz

Special Features:

Depth range 0 to 30 feet, weight is 45 lbs, well suited for geotechnical and environmental applications as well as archaeological investigations

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T208-a
