Overall Length:

10.000 inches

Overall Height:

1.187 inches

Overall Width:

5.875 inches

End Application:

Receiver-transmitter, radio navigation airborne

Special Features:

Connector, electronic component assembly, power supply, spacerside wall assembly, terminal-13 components in all; bracket mtd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
