**Overall Length:**

3.750 inches

**Overall Height:**

0.750 inches

**Overall Width:**

2.250 inches

**End Application:**

Oscillator subassembly

**Component Type And Quantity:**

1 printed wiring board

**Special Features:**

Capacitor, transistor, diode, resistor, handle, integrated circuit, insulator, heat sink; mounting method: connector; component quantity: 55; mounting configuration: plug-in mtd

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A5110
